

RE proposal # 02-278 I am opposed to this as it will interfere with state of Indiana laws already in place. The Indiana no phone solicitor law is wonderful and has resulted in much peace and quiet in our home. This is especially advantageous with two toddlers in the house. At times before the state law was enacted we would get six solicitors daily. Now we get none. How would you like to have that kind of peace and quiet in your home? Please do not enact proposal 02-278. Thank you for your attention. Charles Novak.
